

EXODEX
FISAT HORIZON CLUB
JANUARY 16,17 2026

Datasheet	
Name of club/cell	FHC
Department (if cell is attached to dept)	Computer science and Engineering
Cells/clubs associated with the activity	NA
Title of the program/event	EXODEX
Date(s) of program/event	16/01/26, 17/01/26
Nature of program/event	Technical Workshop
Target audience	2nd and 3rd year students
Name of faculty coordinator(s)	Ms.shimy Joseph
Name of student coordinator(s)	Mr.Abhijay Prakash
Total expenditure of the event	
Details of Funding	
Registration fees if any	
Number of participants/attendees	80
Any association with industry/professional bodies/other institutes etc.	NA
List those Website, if any, used for the event	NA
Any other remarks you may want to add	Excellent participation and collaborative learning

Title of event

Report of the event:

Title of Event: Exodex

Organized By: FHC

Date(s): 16/01/2026, 17/01/2026

EXODEX was a two-day technical fest organized with the objective of fostering innovation, collaboration, and technical excellence among students. The event brought together technology enthusiasts to participate in various engaging activities, including workshops, technical challenges, games, networking sessions, and interactive experiments..

The two-day EXODEX programme began with a session on 3D Printing and Laser Cutting on the first day. In the afternoon, participants attended a Soft Skills session, making the day both informative and engaging.

On the second day, the programme continued with sessions on Game Development and No-Code Machine Learning (ML). The event concluded successfully with active participation from students, providing an enriching learning experience throughout the two days.

Objectives of the Event:

- To encourage innovation and creative problem-solving.
- To provide hands-on learning through workshops and technical sessions.
- To promote networking among students, faculty, and industry professionals.
- To enhance teamwork, leadership, and communication skills.

Expected Outcomes:

- Gain hands-on experience in Game Development, 3D Printing & Laser Cutting, and No-Code ML.
 - Develop technical, creative, and problem-solving skills.
 - Learn industry-relevant tools and emerging technologies.
- Encourage innovation, collaboration, and practical learning.

Target Audience:

second and third year students across all departments participated.

Number of Participants:

80 participants.

Structure of the Event:

Morning Session:

DAY-1

- **9.30AM-12.30PM:** 3D Printing and Laser Cutting Workshop – Participants attended a hands-on session introducing the concepts and applications of 3D printing and laser cutting.

Afternoon Session:

12.30 PM – 1:30 PM: lunch break

- **1.30PM-4.00PM:** Soft Skills Session – An interactive session focused on communication, teamwork, and professional development.

DAY-2

Morning session:

9.30AM-12.30PM: Game Development Workshop – Participants took part in a workshop on the fundamentals of game development.

Afternoon Session:

12.30PM-1.30PM: lunch Break

1.30PM-4.00PM: No-Code Machine Learning (ML) Workshop – The programme concluded with a session introducing machine learning concepts using no-code platforms.
